

Hi

Firstly, a big thank you to all the members who have renewed their membership for another year - we really appreciate your continuing support. If you are not sure of your expiry date, just log in to the website and it is now shown on your Member Home page.

This week, Warren and I are back from Sydney and preparing for our next Show - the Mid North Coast Caravan Camping 4WD Fish and Boat Show in Wauchope (3, 4 and 5 August). Once again, we will be running seminars at the Stand throughout each day of the Show. I will give you more details as the dates get closer.

We have plenty of new jobs again for you this week from right around the country, and in a variety of industries (including another new Workabout Australia Employer). Remember, if you are not quite ready to 'hit the road' yet, make sure you use the bulletin as a planning tool.

Til Next Week.  
Take Care,  
Justine

## Tip of the Week

Before applying for positions, here are a few things to think about:

- Have a think about how your skills and experience might translate to the position you are interested in. For instance, do you have organisational skills, customer service experience or a driving background for example. Don't forget any volunteer work and life experience that you may have.
- If an employer is asking for certain qualifications, make sure you have them before applying for the position. Do you need a ticket/licence etc?
- Are you prepared to meet any time commitments that the employer is specifically requesting? Some may be able to change their requirements to suit you, but others may not.
- Be honest - the employer is wanting to know if you are suitable for them, just as much as you want to enjoy your time working for them. If you are not sure if your skills or experience are suitable for the position, contact the employer to discuss it with them.
- Above all - enjoy yourself. If you don't happen to get the position you were interested in, don't be discouraged. Asking for feedback from the employer on what you could improve for next time can help with applying for the next position.
